About us

Energizer® is leading the power and portable lighting categories worldwide with a powerful portfolio of groundbreaking products and consumer-led innovation.
Our battery and light products are sold in more than 140 markets around the globe.

Innovation at the heart of our strategy

1896 Invents first dry Cell battery

1898 Invents first handheld flashlight

1957 Invents the world's first watch battery

1991 Invents world's first zero mercury alkaline battery

1992 **Invents the world's first AA lithium battery**

1997 The world's first rechargeable NiMH battery

2001 Our History of Sustainable Innovation hearing aid batteries

2009 Launch of PowerSeal™ Technology prevents battery leaks

2016 Our world's first AA & AAA batteries made with 4% recycled batteries

2018 Our No.1 longest lasting alkaline (AA/AAA)

2021 **World's Longest Lasting 2032**

2021 15% recycled materials in rechargeable batteries (AA,AAA,C,D,9V)

2023 Increased the shelf Life of our Ultimate Lithium Batteries

2025 Launch of Child Safety Lithium Coin with Color Alert system

2026 Performance Upgrade of Max Plus AA

2026 **Launch of the World's First Lithium coin battery preventing ingestion burns if swallowed**

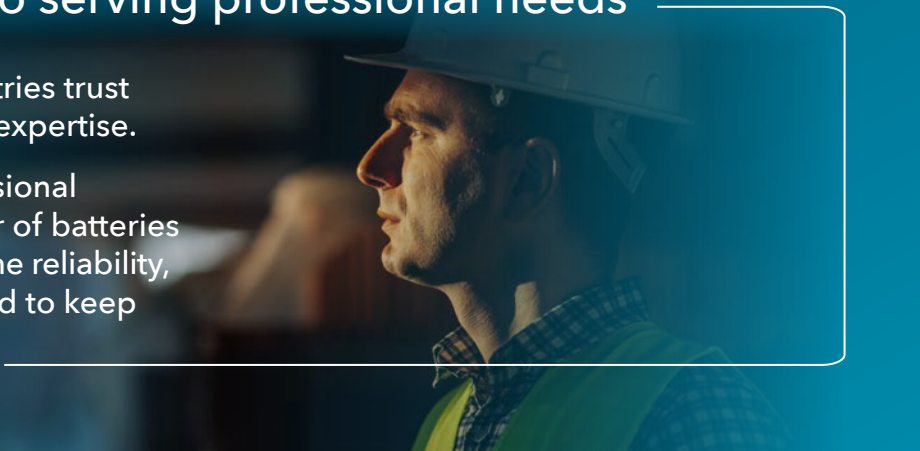

2027 Performance Upgrade of Max Plus AAA

Comming soon in 2027
30% recycled materials in rechargeable batteries (AA&AAA)
Performance Upgrade of Max Plus AA & AAA
Performance Upgrade of Lithium AAA

A unique full line portfolio serving professional needs

Professionals from various industries trust Energizer because power is our expertise.

With a long history in the professional channel, being a category leader of batteries and lighting, Energizer delivers the reliability, performance and safety you need to keep moving forward.

DOING THE RIGHT THING FOR THE PLANET AND OUR CUSTOMERS

At Energizer, we are focusing on reducing the impact our company and products have on the environment.

Our purpose is to responsibly create products to make people lives easier and more enjoyable.

We ensure consumers enjoy our products today without sacrificing tomorrow.

- Building a **10 year** decarbonization plan using internal and external resources
- **30%** Reduction in Scope 1 & 2 Green House Gaz Emissions Since 2021
- **63%** Goal Reduction in Green House Gaz Emissions by 2035

HEARING AID BATTERIES PRODUCTION

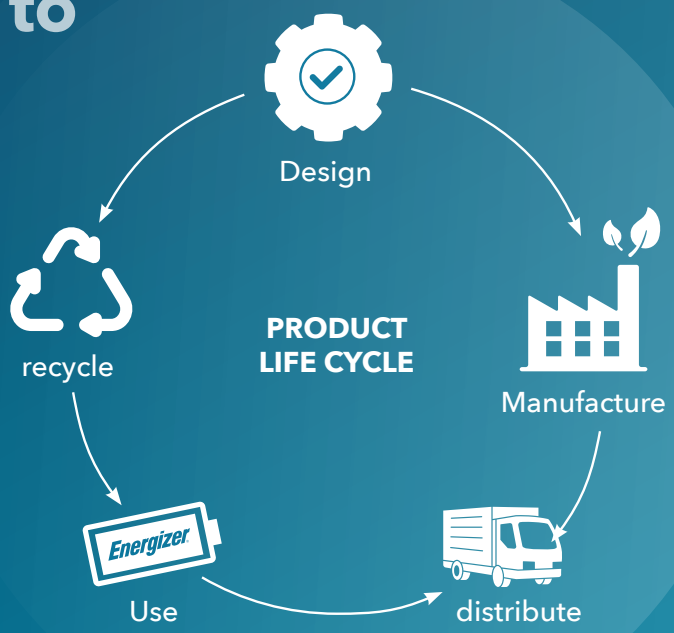

ALKALINE PRODUCTION

Jeff Roth
Vice President, Category Marketing

" Energizer is continuing to invest in research that improves the sustainability of our products, and including recycled content in our offerings is one of our main priorities."

Products

Up to **30%*** for Rechargeable Extreme & Power Plus AA/AAA*

*from May 2027

PowerSeal technology gives excellent **shelf life and leakage protection**

+POWERSEAL TECHNOLOGY

Conversion of lighting products to **LED**

Packaging

Introduced **PLASTIC FREE*** battery retail packaging

PLASTIC FREE

*Excluding Seals on select packaging

Battery labels changed from PVC to **PETG**

100% of Energizer's corrugated packaging are **fully recyclable**

Energizer®
MAX PLUS™

MORE POWER
LESS WASTE*

FROM JANUARY 2027

UP TO

250% LONGER LASTING**

* Max Plus, vs previous formula.
** Vs standard minimum average duration in High Drain Applications. 250% longer lasting from January 2027

Longer-lasting performance means fewer battery replacements.
Fewer swaps, Fewer stops, Fewer costs.

This is our promise of performance - the idea that when power lasts longer, **everyone wastes less.**

READY TO USE WHEN YOU NEED THEM

- 15 years shelf life (AA/AAA)
- 10 years shelf life (C and D)
- 5 years shelf life (9V)

OUR #1 LONGEST LASTING ALKALINE*

*(AA only)

- Lasting power for demanding devices
- For everyday usage

Find more about Max Plus performance!

Try our #1 longest-lasting Alkaline battery*

LIGHTS ARE ESSENTIAL WORK TOOLS

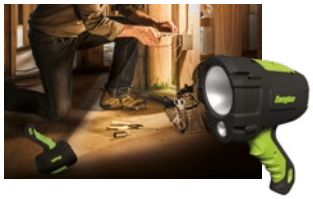

For security

In case of emergencies such as power cuts and for moving around safely
- High quality LEDs without dark spots & areas for visual comfort
- Impact resistance and water resistance
- ATEX certified lights for hazardous work environments

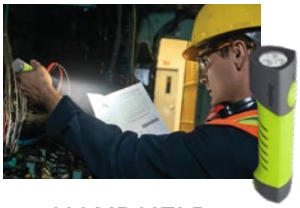

For comfort and efficiency

To improve comfort at work & To optimize productivity
- Handheld and hands-free solutions
- Choose an adapted light solution based on your needs for light intensity, beam distance, and run time

Energizer® lights provides 4 categories of lights that cover different usages

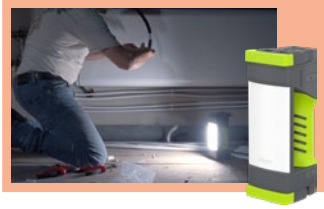

SPOTLIGHT
Powerful long distance lighting

HANDHELD TORCHES
For close-up work, inspection & precise lighting

HANDS-FREE SOLUTIONS

AREA LIGHTS
Light a wide work area

HEADLIGHTS
Attached to a helmet or fixed to your head. The light follows your moves

Energizer lights follow ansi standards

The American National Standards Institute ensures products performances are all measured based on a common protocol to facilitate choice.

LIGHTING SPECIFICATIONS

- LUMENS — LIGHT NTENSITY
- REACH — BEAM DISTANCE
- BEAM ANGLE — BEAM ANGLE

RESISTANCE SPECIFICATIONS

- RUN TIME — RUN-TIME
- WATER RESISTANCE IPX4 — WATER RESISTANCE
- WATER RESISTANCE IPX7 — WATERPROOF 1M IMMERSION RESISTANCE
- DROP RESISTANCE — DROP IMPACT RESISTANCE (meters)

BRIGHTNESS LEVEL
The more Lumens, the brighter the light will be.
The scope and setting of the light is very important because if the light is too bright it can cause reflection, impede work and discharge power more quickly.
Expressed in Lumens.

BEAM ANGLE
Broader beam angles will result in more spread-out light, but the light will also be less intense. Vice versa, narrower angles will have less spread but higher light intensity.

BEAM DISTANCE
refers to the maximum reach or distance at which a light source can effectively illuminate an area. Expressed in meters.

RUN TIME
How long a light can run until it offers 10% of the initial lumen output.
Expressed in hours.

INGRESS PROTECTION: WATER RESISTANT & WATERPROOF
It indicates how well the device is protected by water and dust.
First # is for solids (i.e. Dust). Second # is for water. The X means no protection.
The Energizer® lights are: IPX4 / IPX7 and IP67.

DROP IMPACT RESISTANCE
The device is dropped six times in different orientations from at least 1 meter onto concrete surface. It must remain fully functional.
Expressed in meters .

POWERFUL & PORTABLE LIGHT FOR EVERY PROFESSIONAL

On the job, you can rely on Energizer® for professional-grade ruggedness, dependability and craftsmanship – offered in a wide variety of innovative lighting devices

ENERGIZER PRO SERIES

More flexibility, more color accuracy and more resistance to water and dust our new range of quality, professional grade lights designed with performance, flexibility and durability to meet the tough standards and demands while on the job! Pro series lights are hybrid and have powerful LED technology that includes High CRI for high-definition color clarity.

HARD CASE PROFESSIONAL

Solid performance light devices with standard features for the job to be done.

On-site or in the field, our Energizer® Hard Case® Professional flashlights feature rugged dependability combined with a good LED technology.

INSTRINSICALLY SAFE

Energizer® work and safety lights are designed and built with the rugged features hard-working professionals need and appreciate on the job. The built-in safety elements and MSHA Approved, ATEX Certified, and UL Listed Energizer Intrinsically Safe lights are safe to use in potentially hazardous environments

TACTICAL SERIES LIGHTS

The Energizer® TAC Series are high performing and durable lights. Spanning from very compact and lightweight to larger, High performance models these are the perfect lights to carry with you and have, no matter what life throws at you.

HEADLAMPS

Hands down, Energizer® has the most useful range of lightweight and versatile lighting products designed especially for those tasks that require two hands.

METAL LIGHTS

Commercial-grade aluminum alloy isn't the only thing that makes these lights special - the combination of natural daylight color and a powerful wide beam creates a high-performance metal light that's «our most advanced flashlight ever.

Discover our Pro Series Lights!

Energizer® LIGHTS
PRO SERIES

USE THEM ALL DAY LONG!

Runtime up to **9 hours in high mode**(1)!

EVEN IN DEMANDING CONDITIONS

Withstands at least **2M drop**(2)
IP67 WATERPROOF &
DUSTPROOF

NEVER RUN OUT OF POWER

The Pro Series are Hybrid:
Run on rechargeable and with primary batteries thanks to a cartridge included

HIGH CRI(3) Avoid any color confusion

Thanks to a HIGH CRI of at least 90
You will easily see the electrical cables and the painting colors in dark work sites.

HANDHELDS & WORK LIGHT with a convenient design

- Non-slip grip
- Large push button easy to use with gloves
- Magnet for hands-free use or storage
- Penlight with clip for secure pocket storage

LIGHTWEIGHT HEADLAMPS that fit all helmets providing comfort and safety

Large head-strap with silicon layers
Red(4) **and green light modes**

Jobs done right.

SPOTLIGHT

Energizer® Pro Series Rechargeable Spot light (1150 LUMENS)

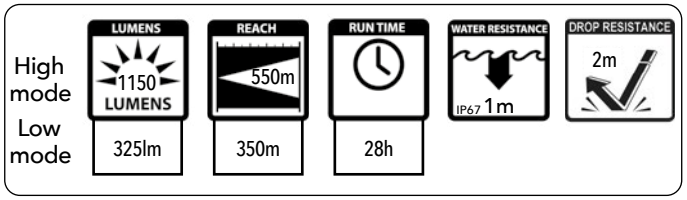

- Long-distance Lighting: Up to 1150 lumens with two lenses for navigation and focus, up to 550m beam distance. This spotlight is particularly useful to identify something far away and move safely in a dark area, ideal in transport, energy and construction environments.
- Runtime: 7 hours (high mode), 28 hours (low mode).
- Versatile Design: Non-slip handle, glove-friendly switch, and anti-roll base for hands-free use.
- Durable: Waterproof, dust-resistant, and non-conductive for safe use near electricity.
- Sustainable Power: Rechargeable Lithium Ion battery, allows hundreds of recharges to save costs and reduce waste.
- Weight: 560g

ATEX LIGHTS

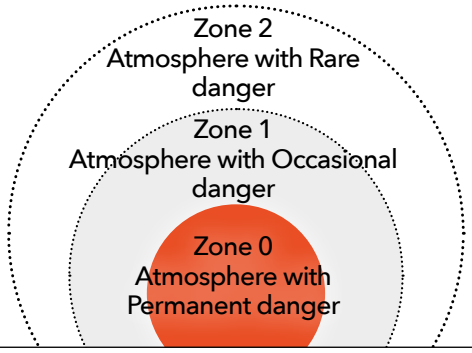

WHAT IS ATEX

ATEX (ATmosphere EXplosive) refers to the hazard of explosive atmospheres in the workplace. This is due to flammable gases or combustible dust that mixes in the air which can give rise to the risk of an explosion.

Energizer® ATEX lights are suitable for:

- Every atmospheres where Gas and Vapors can cause an explosion (Zone 0, 1 & 2)
- Both product groups

  Group 1: case specific to mines
  Group 2: all surface industries

What are the characteristics of ATEX certified lights?

CE 0539 Ex I M 1 / II 1 / G / Ex / ia / op is / I / IIC T4

CE	Authorized by the European: Committee for electrochemical standardization
0539	Marking certifying DEMKO / UL international quality control
Ex	Protection against explosions
I M 1	Mine equipment, category M1: high protection
II 1	Surface industry type equipment, category 1: very high protection
G	Suitable for gas and vapor type risk environments
Ex	Tested to the latest European manufacturing standards
ia	Light material design ensuring maximum intrinsic safety
op is	Inherently safe optical radiation protection
I	For use in Mines category 1
IIC	Resistant to gas groups Acetylene and Hydrogen, Ethylene and Propane
T4	Temperature class 4: resist up to 135°C

Intrinsically safe torches for professionals in hazardous environments

TACTICAL LIGHTS

10 000L Rechargeable Focus Tactical Torch

The 10 000L Rechargeable Focus Tactical Torch is as robust as it is powerful. If you need to light a wide area, then a precise spot, with extra power up to 10 0000 Lumens to see your full environment, this light is made for you. Its twist-focus head allows to double the lighting beam when switching from narrow to wide mode. Crafted from aircraft-grade aluminum, it's built for durability.
Whether you're in security operations, need to see exactly what you're heading at or in outdoor jobs and need to illuminate vast areas, you need this light.
With a rechargeable battery doubling as a power bank, it's a reliable and versatile light for demanding environments.

· 5 Modes: high, medium, low, emergency strobe & boost
· Up to 15X brighter than Standard LED Technology
· USB-C Rechargeable – Fully charges in 8 hours*
· Battery Charge Indicator
· Dimensions: (H295)x(66W)x(D66)mm
· Weight: 950g

*Runtime for boost/turbo modes is measured from on to end of mode. It is not an ANSI claim and should not appear in an ANSI icon or table.

TATICAL HEADLAMP

2000L Rechargeable Headlight Tactical

The 2000L Rechargeable Headlight Tactical is ideal for security and construction environments. It offers up to 2000 lumens of brightness, with a directional beam for precision tasks. Its durable aluminum build, IP67 certification, and 1m drop resistance ensure reliability in tough settings.
Transformable into a handheld torch or magnetically fixed, it supports hands-free use.
Dual power (rechargeable or alkaline batteries) options and six adaptable modes make it perfect for demanding, high-mobility tasks. A trusted light for challenging jobs.

- Charging Indicator & Low battery indicator
- 6 modes provides versatility to suit your needs: Boost/High/Medium/Low/ Green/Red
